

# WORLD WAR 1 HOMEWORK

Your mission - which you must accept – is to research living conditions of soldiers who fought in the trenches during the First World War and find out about the hardships they faced.

You should consider the following:

- Diet/food
- Sleeping arrangements
- General accommodation
- Ages of the soldiers on the frontline
- Diseases
- Nicknames for the enemy
- Equipment found in the trenches
- Comforts from home which they missed

You may present this work however you wish, but it is very important that you concentrate on collecting as much relevant information as possible about life in the trenches.

It is vital that you complete this research in preparation for one of our pieces of writing next half-term.

**DUE: MONDAY 13<sup>TH</sup> NOVEMBER 2017**

**Very Important Notice:**

You must present this work in your own words, so you can successfully use it to support your work in English.

**Print outs from web pages will not be accepted/work copied directly from websites and books.**
